

REDACTED

It they filed all of
these documents - Lien,
arrest, etc., but it
was after the trial
so that it could not
influence the court
decision, would the
filing of the documents
themselves be illegal?

The Court's answer:

The jury has received all the evidence presented in this case
and been fully instructed upon the law. It would be an
invasion of the jury function for the Court to answer this
question.
